# Test Plan – SW: Motor Q&B: Breakdown: Simplified content question: All Devices

Angeli Mehta

09/04/2021

Name	Version	Changes
Angeli Mehta	1	Document created

# Test Background

## Evidence

- Following the user testing it was clear that the breakdown step is confusing for customers. We want to test a simpler version by reducing the content for each question.

## Hypothesis

By simplifying the questions on the breakdown page we will help users to understand the questions better and lead them to the right level of cover increasing breakdown uptake.

## Test Goal

Increase breakdown uptake

# Targeting

Name	Description	Example URLs
Breakdown page	Breakdown page	<a href="https://www.sheilaswheels.com/motor/breakdown">https://www.sheilaswheels.com/motor/breakdown</a>

# Audiences

## Devices

Desktop, Tablet, Mobile

## Other

Customers that have landed from an aggregator

Add global holdback to the audience in Optimizely

Add the variation code to the control but comment it out to ensure there is no difference in page speed load

## Scenarios & Considerations

### QA Tier

Tier 3

### Scenarios

- 1.1 User selects No to breakdown cover – no cover offered
- 1.2 User selects Yes to breakdown cover at home AND Within 10 miles of home if needed to be towed – Roadside Assistance & Home Rescue
- 1.3 User selects Yes to breakdown cover at home AND Any garage in the UK if needed to be towed – Roadside Assistance & Home Rescue & Recovery
- 1.4 User selects No to breakdown cover at home AND Within 10 miles of home if needed to be towed – Roadside Assistance
- 1.5 User selects No to breakdown cover at home AND Any garage in the UK if needed to be towed – Roadside Assistance & Home Rescue & Recovery

### Considerations

- The price is to be dynamic and updates if user has chosen annual/monthly previously

## Control – Home&gt;Within 10 miles

**RAC** **Would you need help getting back on the road if your car broke down?**

If you don't already have cover, would you be interested in protecting yourself against being stranded?

Having breakdown cover means help is at hand 24/7 if your vehicle breaks down and as standard includes:

- FREE unlimited call outs, available 24/7
- Unlimited labour time at the roadside
- Towing to a local garage if necessary

We have 2 quick questions that will help us assess which level of cover most suits your needs.

**Where would you like your breakdown cover to start from?**

The problem could be something as simple as a flat battery or punctured tyre.

**If your car couldn't be repaired at the roadside, where would you want it taken?**

Would you be happy to go to a garage of RAC's choice within 10 miles of the breakdown so you can arrange repairs?

Or would you prefer to choose where in the UK to be taken to get your car repaired? This might be back home to your local garage or onwards to your destination.

Based on your answers to the questions above, the cover that best suits your needs is:

**Roadside Assistance + Home Rescue**

If you choose to protect yourself by adding this breakdown option, RAC will provide...

- FREE unlimited call outs, available 24/7
- Unlimited labour time at the roadside
- Towing to a local garage if necessary
- Help if you're more than 1/4 of a mile from home
- Help at your home or anywhere else in the UK
- Towing to any garage up to 10 miles from the breakdown

Would you be happy to go to a garage of RAC's choice within 10 miles of the breakdown so you can arrange repairs?

Or would you prefer to choose where in the UK to be taken to get your car repaired? This might be back home to your local garage or onwards to your destination.

Based on your answers to the questions above, the cover that best suits your needs is:

**Roadside Assistance + Home Rescue**

If you choose to protect yourself by adding this breakdown option, RAC will provide...

- FREE unlimited call outs, available 24/7
- Unlimited labour time at the roadside
- Towing to a local garage if necessary
- Help if you're more than 1/4 of a mile from home
- Help at your home or anywhere else in the UK
- Towing to any garage up to 10 miles from the breakdown
